

# Radiological Terrorism for Healthcare

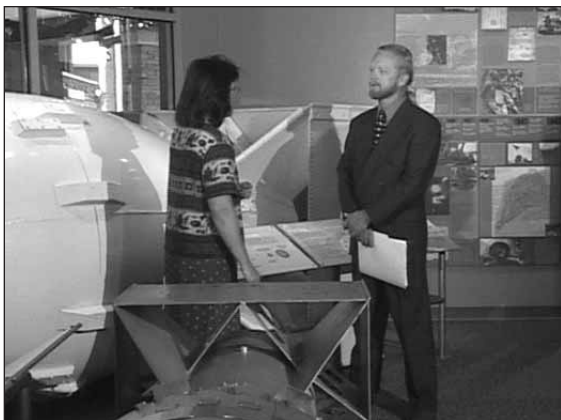

## Hospital Response to Radiological Incidents

*First Place: Columbus International Film & Video Festival*

Casualties of a radiological incident could be seen by any hospital unit including the ED, surgery, pediatrics, and obstetrics. This training will give your staff the confidence to handle these incidents.

### Content:

- Sources of natural radiation.
- Exposure, external contamination, and internal contamination.
- Short versus long term effects.
- Limiting radiation exposure.

This DVD was produced with the cooperation of Los Alamos National Laboratories.

When cesium-137 was accidentally released in Brazil over 110,000 worried-well overwhelmed healthcare services.

*“The film erases all the mystery and fear so woven around ionizing radiation and radiological terrorist events or accidents. It should be required viewing for all first responders and Emergency Room personnel.”*

Donald W. Kautz, Ph.D., M.P.H.  
TMCH Safety Officer, Industrial Hygienist  
Tucson Medical Center, Tucson, AZ
